Part 2 «Reading»

Time: 30 minutes (24 points)

Task 1

Read the text and choose four of the statements A-F to match paragraphs 1-4.

1. Garlic reduces the risk of heart disease.
2. Juggling is good for the brain.
3. Eating oranges can stop you from getting colds
4. Sitting too close to a television is bad for your eyes.
5. If you get cold, you risk catching a cold.
6. Reading in poor light can damage your eyes.

Truth or Myth?

1 6 4

This is a (5) myth. It won't damage your eyes. (6) although it might give you a headache. The (7) sensible thing is to watch television at a distance that feels comfortable. But watching too much TV can be a bad idea. In (8) fact, research shows that children who (9) regularly spend more than 10 hours a week watching TV are more likely to be overweight and slower to learn at school.

2 2

This (10) appears to be true. Scientists have found that juggling balls for one minute every day can increase your brain (11) power. Researchers in Germany carried out brain scans and found that certain areas of the brain had grown (12) larger in people who practiced juggling. However, when they (13) stopped juggling, their brains went back to their (14) normal size.

3 1

This is a (15) common belief, but scientists say there is nothing to (16) prove that it's true. However, the use of this vegetable as a natural (17) remedy goes back to the Ancient Egyptians, and research shows that it can be an effective (18) treatment for coughs, sore throats and upset stomachs, among other (19) illnesses. Unfortunately, many people dislike the smell, but you can take it in pill form.

4 5

The truth is that people get colds from viruses, not from being cold. (20) however, keeping warm may help you to (21) avoid getting a cold. Researchers at Cardiff University's Common Cold Centre found that a fall in body temperature can (22) cause cold viruses to become active. In a (23) trial, a group of people sat with their feet in (24) bowls of iced water for 20 minutes. A third of them developed colds in the next five days, compared to only

9% of another group who kept dry.
